TOXIC STRESS & **BRAIN ARCHITECTURE**

Toxic stress is defined by Alberta Family Wellness as that which is severe and prolonged in the absence of the buffering protection of supportive relationships. Sources can include things like physical or emotional abuse, chronic neglect, severe maternal depression, parental addiction, or family violence. Toxic stress disrupts brain architecture and leads to lifelong problems in learning, behaviour, and both physical and mental health.

Educate yourself on brain development and the effects of toxic stress. Check out Alberta Family Wellness' YouTube channel or visit albertafamilywellness.org.

We're doing things a little differently this year. We've rented a large group area complete with a covered cooking shelter, so we can enjoy our time together rain or shine! We'll be hosting evening campfires and a fun-filled Saturday full of games and a hot dog lunch. Join us for the weekend, or join us on Saturday - either way, we'll be happy to see you! We've reserved twenty spots, and we're sure to fill up every one of them, so RSVP quickly!

MOM'S GROUP

Join our mom's group from 7-9PM on the second Wednesday of every month (excluding July & August). There is no set agenda for this group, so come with your questions and topics of interest in hand.
